

## MADISON RECORD SIGNS LEAD SINGER TONY LEWIS FROM THE OUTFIELD

Atlanta's Madison Records is proud to announce the signing of Tony Lewis to an exclusive record deal. Lewis is the lead singer from The Outfield, and has spent the last 2 years writing and recording new material.

The Outfield were an English rock band based out of London, England. The band took the airwaves by storm with their infectious pop songs, including "Your Love," "All the Love," and "Say it isn't So." The band's line-up consisted of vocalist and bassist Lewis, guitarist John Spinks, and drummer Alan Jackman.

Their debut album, *Play Deep*, was issued in 1985, and would go on to reach triple platinum sales status and the Top 10 in the US album charts. "Your Love" peaked at No. 6 and is still featured in a number of compilation albums, commercials, and has been covered or remixed over 1,000 times by other artists.

Lewis's upcoming album *Out of the Darkness* will be released in July 2018. "It took me three years to get back into the groove again, and I enjoyed the opportunity of playing all of the instruments in addition to the vocals", said Lewis. "I am really excited to be working with Madison Records. They have believed in my music since they first heard it, the year ahead will be an exciting one!".

Madison Records is based in Atlanta, GA, and recently partnered with The Orchard for world-wide distribution, which is owned by Sony Music Entertainment. "We are so excited to have Tony join the Madison family. His sound and presence brings a new diversity to the label," said Madison President Tanner Hendon. "We believe with our new artists and partnerships, 2018 will be our best year yet."

In addition to the label side, Madison has their own state of the art recording studio, and features the Southern Tracks SSL Board, which was used on the recordings of legendary artists Bruce Springsteen, Pearl Jam, Stone Temple Pilots, Black Crowes, and more.

Lewis will be performing on this summer's much anticipated Retro Futura National Tour. In addition to Lewis, the tour features Belinda Carlisle, Modern English, ABC, Limahl from Kajagoogoo, and Annabella from Bow Wow Wow. "I am really looking forward to supporting this new music by performing live and reconnecting with the music industry." said Lewis.
